

Propel your journey to hybrid cloud with FlexPod XCS

Automation for your modern needs

The hybrid cloud landscape is evolving every day, and infrastructure demands are changing with it.

Hybrid cloud can jump-start your digital transformation journey, but you still need to overcome its complex processes before you can really take off. To connect, secure, automate, and optimize on-prem and cloud environments, running on-prem with a cloud-like experience is key. Ready to soar to hybrid cloud success? Check out how FlexPod® XCS can help.

- ✔ Leverage Cisco Intersight and NetApp hybrid data services to power your apps and meet demands.
- ✔ Gain an automated foundation for hybrid cloud that delivers the capabilities you need.

77% of CIOs plan to leverage a hybrid cloud strategy for the foreseeable future.¹

Meet the next generation of hybrid cloud infrastructure

Discover a new level of hybrid cloud connectivity, visibility, and automation with flexible consumption options.

Hybrid cloud services

Get the lift you need by streamlining ops and accessing the simplicity, flexibility, and agility of cloud services with FlexPod XCS. Deploy wherever your workloads and data need to reside with next-gen operational infrastructure.

- ✔ Optimize infrastructure to workloads
- ✔ Simplify data management and storage
- ✔ Run cloud-native apps with FlexPod XCS

Spend <5 min to build a hybrid cloud²

Visibility

It's clear skies ahead with insights that help you optimize cost and performance as well as maintain supported configurations across your FlexPod infrastructure. That means you can intelligently optimize app placement and operations so infrastructure never impacts app performance.

- ✔ Manage compute, storage, and networking with Cisco Intersight's single pane of glass
- ✔ Monitor full-stack inventory, system health, and app performance with a single FlexPod or across several that are geographically dispersed
- ✔ Proactively discover, manage, and fix hardware capacity issues

Get full-stack views and insights with the Intersight FlexPod Dashboard

Turnkey automation

When you automate your IT infrastructure processes, it's easy to make your IT team more efficient, evolve your infrastructure with scale and simplicity, and reap the benefits of increasing value over time.

- ✔ Automate lifecycle management
- ✔ Access a growing catalog of out-of-the-box or customized workflows
- ✔ Gain insights from telemetry-based monitoring

Get 50x faster automated configuration management with certified Ansible modules³

FlexPod as a Service

Choose the best journey for your business and financial destinations. Free up resources to drive innovation and get a great hybrid cloud experience thanks to the flexibility of choosing the consumption model that best suits your needs.

- ✔ Align costs to usage
- ✔ Lower upfront costs
- ✔ Get operational and financial flexibility with the pay-as-you-go model

Simplify your ordering process and reduce upfront costs

FlexPod: The 1st and only converged infrastructure with native integration into leading hyperscalers

With the new FlexPod XCS capabilities, you'll rise to meet every digital transformation challenge you encounter on your way to sky-high hybrid success.
